

Coquitlam Amateur Radio Emergency Services Society (CARESS)

FIELD DAY 2015 – June 27/28

The *Coquitlam Amateur Radio Emergency Services Society, (CARESS)* in conjunction with the *New Westminster* and *Burnaby Amateur Radio Clubs*, welcome to our Field Day. This event will be hosted at CARESS's facilities on the Riverview Grounds running from **11AM Saturday June 27 through to Sunday 11AM June 28.**

Field Day showcases the application of emergency communications by licensed amateur radio operators using the latest in voice and data radio technologies. We are co-located with BC Ambulance and the radio museum operated by the Society for the Preservation of Antique Radio in Canada, (SPARC), which will also be open for viewing on Sunday.

CARESS provides Emergency Communication backup for the City of Coquitlam. We volunteer with Emergency Management British Columbia, (EMBC), and we coordinate with their Provincial Regional Emergency Centre, (PREOC), in Surrey.

When you visit us on Field Day, you will:

- See extensive upgrades that include 3 new 80-foot towers configured with antennas that allow us to communicate on a global basis;
- Tour through our renovated Radio Room that showcases our newly acquired equipment;
- Have the opportunity to get hands-on experience talking to stations around the world;
- Learn about this fascinating hobby and how it benefits you and your community;
- Find out how easy it is to become a licensed amateur radio operator.

All members of the public are welcome to attend.
